

About to get the COVID-19 vaccine?

Please note that you will be unable to get your vaccine today if you have:

- COVID symptoms (fever, cough, sore throat).
- Had close contact with a COVID case in last 10 days.
- Had COVID in the last 30 days.
- Had another vaccine in the last 2 weeks.

Please let staff know early - they will direct you to the site manager to re-book your appointment.

* If COVID symptoms - test at your nearest clinic and isolate

** If close COVID contact, quarantine at home and test if symptoms develop.

Please let your vaccinator know if:

- You have a history of allergy to medication, vaccine, food or any other substance.
